AGNES BALDWIN BRETT
136-36 MAPLE AVENUE
FLUSHING, N. Y.

August 2, 1937

The lost negative of Cleopatra Thea
of Syria, mother of Antiochus VIII, has
not been found at Amer. Journ. Arch. office,
and while I have written for a pair
of casts of this unique coin in Brit. Mus.,
they may arrive too late for my Cleopatra
Paper now in press.

Will you therefore have made for me
a photograph to exact size of the
illustration on the plate of the

British Museum Cat. Kings of Syria?

The number I cannot give you but
you & Mr. Noe can surely figure it
out - well, anyway, same coin as
shown in Heald's H. N. 2 p. 769. fig. 389.
It is at top of plate in BMC Syria.

When finished, kindly forward
directly to Miss Mary Z. Pease
Amer. Journ. of Archaeology, Bryn Mawr
College, Bryn Mawr, Pa., from Mrs. A. B. Brett
"Photo of Cleopatra Thea, W. Prer." for Brett
Cleopatra article, and charge to me.

Glad to hear all are well & of
Sylvia's plans. Bob had a fine letter

August 5, 1937

Dear Agnes:

Your letter came yesterday and I got the photographer in and he photographed the Cleopatra from the B.M. Catalogue which I found easily enough by your clue from Head. He has promised to print tomorrow and on receipt of it will mail it at once to Bryn Mawr, and I trust your troubles on that score will now be at an end.

Sylvia came over from Detroit bubbling over full of enthusiasm and is going out there in September.

I had several letters from Pradeay first along asking advice and this and that which I gave him as it did not cost us anything. I also sent him a bill of \$32. for photographs made which he promptly paid. I could see by his letters he was rather green at the publishing business and has had several printers figuring on the job and is now up against the throes of estimates on the illustrations. I sent these on to him and as they are not mounted for halftone work but for heliotype, he is going to be up against it to have them made economically by half tone.

Very truly yours,

Curator

Miss Mary Pease,
American Journal of Archaeology,
Bryn Mawr College,
Bryn Mawr, Pa.

Dear Madam:

I am herewith enclosing photograph of a Cleopatra
Thea coin to go in Mrs. Agnes Baldwin Brett's Cleopatra
article, which she requested us to send to you.

Very truly yours,

Curator
